

STOP THE CUTS!

Why is our education at risk?

Why is the Budget out of control and why is no one speaking up?

Students, faculty and staff from many colleges, universities and school districts in California are asking these questions. But more importantly, they are organizing and creating a movement to act on these attacks on the basic human right of getting an education.

You are invited to attend the Northern California Defend Our Education organizing meeting for all student, faculty, and staff members, parents, Union members, church members, or community group members. We strongly encourage attendance by members of similar committees.

Defend Our Education Northern California Conference

Date: Saturday, September 26, 2009
